Experience

Community Engaged Learning Associate

Fairfield University – Sep 2021 to May 2022

Supervisor: Dr. Margaret Wills

- Assisted as an instructor for the course *Alcohol Addiction and Culture*.
- Led sessions to conceptualize and create monthly project proposals, providing constructive feedback on student presentations.
- Coordinated Q&A sessions via Zoom to help local high school students prepare for college transition.
- Supported classroom learning by answering questions, assisting with homework, and fostering discussion.

Service for Justice Member

Fairfield University – Sep 2019 to May 2020

- Participated in the Service for Justice residential program focused on social justice and community engagement.
- Helped organize fundraising events and volunteer opportunities through overnight retreats.
- Joined mentoring sessions with groups of 6–8 students to encourage reflection and belonging.
- Coordinated and engaged in local service projects to support marginalized communities.

Sales Associate

maXedout Clothing, New Canaan, CT – Jun 2020 to Aug 2024

- Provided customer service by greeting and assisting shoppers.
- Processed transactions, managed inventory, and handled payments.
- Engaged customers with product knowledge and personalized recommendations.
- Maintained communication with management to support smooth daily operations.

Podcast Producer and Host

Self-Employed, Stamford, CT – Oct 2022 to Present

- Launched and produced a sportscasting podcast covering news, statistics, and analysis of major sports leagues.
- Researched, conceptualized, and presented weekly episodes.
- Edited audio with Audacity and Adobe Audition to create engaging and professional sessions.
- Built a listener community by communicating current events in an entertaining and informative style.
- Created a file integrity monitoring python script that helped to serve as an introduction to python and cybersecurity.
- Now currently in the six month tech career readiness program and created a vacation budget calculator to further python skills.
- Will be working on creating a small scale security operations center simulation to help gain cybersecurity skills and experience.
